EXPERIENCE

JABRA – GN AUDIO (<https://www.jabra.com/>)

September 2017-December 2017

Student Analyst in Strategy and Business Development, Copenhagen, Denmark

- Jabra markets a broad range of hand-free solutions for mobile phones, contact centers, and offices. Including the first true-wireless product to reach the global market. Reported to the VP of Strategy and Consumer Business.
- Made several market analyses ranging from software to hardware products that were of interest to top management and board.
- Responsible for briefing top management on new technologies that can influence the business.

BLISS APPLICATIONS (<https://www.blissapplications.com/>)

June 2017-August 2017

Intern, Boston, USA

- Bliss Applications is a user-centric software development company that builds digital solutions for the current technology landscape.
- Built a program for the sales department that analyses leads and ranks them according to user preferences.
- Worked with 3 clients to transform their ideas into viable technology products and guided them through the development and design process. Industries: Health, Entertainment and Social Media.
- Performed analysis and benchmarks of competitors including product maps, user review analyses, and benchmarks.
- Developed 3 mobile application prototypes.
- Wrote 8 articles in 8 weeks for the company's Blog focusing on topics such as mobile apps, entrepreneurship, and product development.

WYGROUP (<http://www.wygroup.net/>)

January 2016-August 2016

Resident Entrepreneur, Lisbon, Portugal

- WYGroup is one of the leading players for digital marketing and technology services in Portugal, and has been for the last 16 years.
- Worked closely with the group's CEO and daughter companies to create new value propositions using the group's resources.
- Co-Founder and creator of eGuru. A start-up that focuses on simplifying deliveries through crowdsourcing.
- Worked closely with designers and developers towards a final product. Managed a team of 10 engineers and designers.
- Developed prototypes of the mobile applications as well as the strategy for development, communication, and sales of eGuru.
- Presented and pitched the project to various companies and competitions. Successfully raised 150.000€ in funding.
